To Whom It May Concern,

I would like to wholeheartedly recommend Phi Theta Kappa member Liza Brown for any scholarship you may have available. She is a dedicated scholar and driven to succeed. She is energetic, respected, and liked by her peers.

I met her nearly two years ago, while writing her business plan for a pinup portrait studio complete with photo retouching services. I later taught her in my Mixed Martial Arts class.

Here at Pierce College, she has been on the Dean's List for four consecutive quarters. She is active on campus; performing in talent shows, awards luncheons, and singing the national anthem at basketball games. She is currently recording her first album here in our recording studios. She is a great role model to the younger music students. She is also considered one of the top Digital Design students. There are talks of having her paint a mural here. She has a work study position in our gallery this spring. She is a proud member of TRIO. She also volunteers extensively in her community. She owns her own business as a freelance artist and is well known in Tacoma. Liza is pursuing an Associate of Arts degree in Design and plans to transfer to Evergreen State College. There she will complete her Bachelor of Arts degree.

Please award her whatever funds you have available and be assured she will make your organization proud.

Sincerely,

Adrian Franklin
